Silversea's luxury expedition ship has been named *Prince Albert II*, recognising the Prince of Monaco's passion for exploration and environmental conservation.

SILVERSEA EXPEDITIONS ABOARD THE *PRINCE ALBERT II*
Unforgettable Adventure. Uncommon Luxury.

Embark on a luxurious Silversea Expedition aboard the *Prince Albert II* – a purpose-built expedition ship with the intimate onboard ambience of a private yacht. Designed specifically for navigating waters in some of the world's most remote destinations, including both of Earth's polar regions, the 6,072-ton vessel boasts a strengthened hull with a Lloyd's Register ice-class notation (1A) for passenger ships. With a fleet of Zodiac boats, her 132 privileged guests can visit even the most off-the-beaten path locations. Experience the thrill of a true expedition. Venture deep into regions where other vessels cannot go whilst enjoying a privileged lifestyle that is simply second-to-none.

Onboard you will find the camaraderie of discerning world-travellers, and many special amenities usually found only on larger ships, including all ocean-view accommodation with private bath, a spacious library with an Internet café, boutique shopping, a full-service spa, beauty salon, fitness centre, live evening entertainment and two top-deck whirlpools. The *Prince Albert II* even features The Humidor where connoisseurs can enjoy the finest cigars and cognacs – a diversion offered by no other expedition ship.

EXPLORING THE EARTH: TOP TO BOTTOM

Journey beyond the Arctic Circle, cruise Patagonia's rugged coast and discover the frozen wonderland of Antarctica. Silversea Expeditions feature Zodiac boats that allow you to explore places that would otherwise be inaccessible. They are not only incredibly safe and secure, but also provide opportunities for up-close encounters with nature's wonders and wildlife. All guests will participate in a complete Zodiac familiarisation session upon embarkation.

SPIRIT OF ADVENTURE

Every journey is new and unique, every day unlike any that has come before.

Itineraries are unstructured by design. Following only a tentative schedule allows for moment-by-moment flexibility. Stay longer at sites of particular interest, or make slight detours whenever weather, nature or mere curiosity dictates.

Your Expedition Leader will work closely with the Captain to ensure opportunities for adventure and exploration are the best possible, based on prevailing weather, wildlife activity and ice conditions.
